January 2012 sees the launch of Version 4 of our 360 Feedback system. V4 of this comprehensive web-based system has incredible flexibility and builds on the success of our previous c360 software. For a 'straight out of the box' option, **Personnica Feedback** is fully populated with questionnaires and reports based on best practice in a range of sectors and can be administered entirely by our own experienced support team. Alternatively, **Personnica Feedback** can be completely customized to suit the client's needs from branding to questionnaires to reports. Full training and support are available to allow clients to run **Personnica Feedback** with confidence completely in-house.

Feedback Pricing Schedule 2012

We want to do our bit to help you during these straightened times - after all this is when our software is most important, so we have revised our Feedback pricing schedule to make it even more competitive.
